

Installing PowerBook G4 Titanium Mercury Airport Card

Tools used in this guide

- [Phillips #0 Screwdriver](#) (1)

Parts relevant to this guide

- [Airport Card](#) (1)

Install an original Airport 802.11b card internally.

Step 1 - Lower Case

- Turn the G4 over.
- Remove the eight Phillips screws from the lower case.

Step 2

- Using your thumbs, slide the lower case away from you.
- The lower case may stick in the front on a tab just above the center of the DVD drive. Be careful as you work the case off, or you may break the thin strip of plastic just above the drive.
- Lift the lower case off.

Step 3

- Your laptop should look approximately like this.

Step 4 - Airport Card

- Skip this step if your computer does not have an Airport card.
- Firmly grasp the plastic tab attached to the Airport card and pull up and to the left.
- Disconnect the antenna cable from the left side of the Airport card.

To reassemble your device, follow these instructions in reverse order.
